WHAT THE BOSTONIANS ARE DOING.

Boston, Nov. 13.—A meeting of citizens to confer upon the present emergency and the future contingencies resulting from the fire, was held in Tremont temple today, Mayor Gaston presiding. In opening the meeting Mayor Gaston said: "While I deeply regret the events so full of disaster and destruction which have led to this meeting, I rejoice to believe that you have come up here with resolute hearts and determined will, not to find fault, but in a spirit of sympathy and generous manhood, to meet the present wants of the hour. He said they had met to relieve distress, to adopt means to restore to more than its original beauty, and certainly more than its original security, the burnt portion of our city. If any had come for any other purpose, they had mistaken the spirit of the meeting. That he had received offers of sympathy and aid from all parts of the country, and it would be false to the city if he failed thus publicly to acknowledge the gratitude for such expressions. From our own citizens, too, had also come manifestations of the same spirit, which made him rejoice that God had given them large hearts and large means. Other addresses were made and resolutions adopted in favor of reconstructing the street lines of the burnt district on a better plan, prohibiting Merchant's Exchange in some central locality, favoring an extension of the legislature, to authorize the issuing of building bonds by the city, and for an application to the general government for an extension of the new post-office building upon the burnt lot adjoining, and for an act by congress allowing drawbacks on building material.

DEAD BODIES FOUND.

On searching the ruins on the site of Hixson & Co's. store, Washington street, this morning, a small bundle of charred human remains was found. It is impossible to identify the remains, but it is known that two men perished in the fire at that place.

HOW THINGS ARE PROGRESSING.

Boston, Nov. 13.—Considerable progress has been made to-day in clearing away the debris, recovering safes and revealing the walls in the burnt district. The military guard will be continued until the buried vaults and safes are recovered.

LIVES LOST.

Fears are entertained that six persons lost their lives by the falling walls of Weeks & Patten's drug store on Sunday morning, four of them being firemen. Search will be made for bodies to-day.

INCENDIARIES.

The fact that incendiaries are about is manifest by an attempt made last night to fire the stable of North & Foster, on Dudley street, Boston highlands. The slabs were torn off of the rear of the stable, and hay stuffed between it and the wall and set on fire. Fortunately the fire was discovered before it made much headway, and was extinguished. Another incendiary fire in the rear of a dwelling house, No. 27 Conant street, was also put out with little damage. Last evening several men and boys were discovered piling wood against a wooden dwelling house on Prince street, and had kindled a fire when a policeman arrived and arrested several of the ruffians.

SALOONS CLOSED.

At noon to-day all the bar-rooms were closed by order of the mayor. The military guard forming a cordon around the burnt district has been increased, and no person is allowed to pass without permission. The military rule is a precautionary measure by request of the mayor. A preliminary meeting of insurance adjusters of leading American and English companies was held at the Revere house this evening. Thirty-six companies were represented but no definite action was taken. It was proposed to appoint committees to settle all claims of risks. At a meeting of the governor and executive council this evening, it was decided that legislation was unwarranted, unnecessary and prejudicial to the whole country. The city was quiet last night and no arrests were made. All the theatre managers have tendered benefits in aid of sufferers by fire. The police stations are filled with property recovered from thieves, \$16,000 worth has been restored to owners and \$30,000 awaits claimants. The gas was turned on to-day; the city was two nights in darkness.

COLLISION.

Milwaukee, Nov. 13.—This morning a collision occurred at Burnham's switch, on the St. Paul railroad, between a freight train of the northern division going out,

and one of the Lacrosse division coming in. A man on the incoming train, named Michael Fay, was caught between the tender and locomotive, and instantly killed. No other casualties or injuries reported.

RAILROAD ACCIDENT.

Washington, D. C., Nov. 13.—A collision occurred this morning on the Baltimore and Potomac railroad, in the southern part of Washington. Four colored men injured.

DESTRUCTIVE GALE.

Bangor, Me., Nov. 13.—A severe gale commenced blowing here last evening, and raged through the night with great fury. Schooner ceraph was blown ashore, and it is reported that two or three others are ashore below.

FOREIGN.

THIERS' MESSAGE TO THE ASSEMBLY.

IT IS FAVORABLY RECEIVED.

THIERS' MESSAGE.

Paris, Nov. 13.—The message of President Thiers was read by the national assembly to-day. The message begins with thanks to God for progress in the work of reparation, and the general prosperity of the country. Referring to the extraordinary success of the last loan asked by the government it says: "The whole available capital of the commercial world was offered to France, half the loan has been realized in three months, Germany has been paid 200,000,000 francs of war indemnity, and will receive 200,000,000 more in December. The budget shows a deficiency of 132,000,000 francs for the past fiscal year; but estimates show that the equilibrium of expenditure and revenue will be restored in 1874, and that surplus may be looked for in 1874. Allusion is made to the disaster of the late war, and the cruel dismemberment of the country. The frightful burden it had to bear in the establishment of the republic, all those things suddenly bursting in on the surprised and disheartened country might have resulted in irreparable disaster if order had not been maintained. A forcible appeal is made to the theoretical republicans not to spare even excessive sacrifices for order in their own interests. Events have given them the republic, the republic exists as legal government, and an attempt at any different form of government would lead to the most terrible revolution. The president deprecates the formal declaration of the republic by the assembly. The better policy would be to impress on the institutions of the country the features of conservative republicanism. The absolute need of France is repose. The masses might live through a few days of agitation, but after frightening others, it fears itself, and falls into the arms of an adventurer, travelling the sad and humiliating journey from anarchy to despotism and despotism to anarchy. The slightest fault is sufficient to wreck the republic. France, orderly and strong, inspires confidence in foreign powers who desire above all, just equilibrium. France, if she chooses not to isolate herself, may become surrounded by trusting and useful friends. To the assembly is left the initiation of constitutional measures. The decisive moment has arrived for the work. The president promises deference co-operation, and concludes by invoking God to bless the work of the assembly, and render complete and durable a consummation which has not been attained since the commencement of the century. The message was well received by the Left, to whom it gives great satisfaction.

WATERFORD BANK SAFE FOUND.

WILL C. MOREAU SHOT.

(Reported Especially for the Bulletin.)

THE REVEREND GENTLEMAN'S TRIAL.

One witness testified to seeing him intoxicated on a train. Also to seeing him in a Chicago sleeping car with a woman who was not his wife. Depositions preferring previous drunkenness were read and the Presbytery adjourned until to-morrow.

Wm. J. Brown sleeping car conductor between Louisville and Chicago, testified Robertson took section on his car about the 17 of July, and traveled from Chicago to Indianapolis. Robertson acted as if under the influence of liquor. He had a lady with him closely veiled. He and lady occupied lower berth together. Saw him lay his head in the lady's lap and hug her. Acted like a newly married couple. Robertson brought a glass of beer into the car and offered it to the lady who refused, and he drank it himself. David Rice, porter of the same car, corroborated Brown's testimony. Said he made up only lower berth in the section, and it had been occupied by Robertson and the veiled lady together. Saw both get into the berth. They seemed very loving. Saw Robertson hug the lady. The testimony for defense will be heard to-morrow.

MAJOR MOREAU SHOT.

Logansport, Ind., Nov. 13.—Judge Dykeman a prominent citizen of this place, shot Will C. Moreau to-day, late sponsor to Mr. O'Connor at the Louisville convention, and editor of the Logansport Sun. The cause of the shooting was the appearance of an article in last week's Sun, denouncing Dykeman. Moreau's wound is serious but not fatal. On last evening a mob comprising about fifty men prepared to tar and feather Mr. Moreau, but were foiled by the police, six were arrested and jailed. The men arrested were employed by Dykeman.
